and Freshens  
the Air

Completely  
Safe for  
Ages 2  
and Above

## Product Details

**Ingredients:** Spruce, Majoram, Lavender, Rosalina, Lemon

**KidSafe:** Yes

**Cautions:** None Known

## Description

Germ Destroyer helps protect your children from seasonal threats, such as those that occur during the winter and pass so easily among little ones. Germ Destroyer is as effective as Germ Fighter (one of our most popular synergies) but is safer for young children. Each oil in this blend helps to support the immune system and respiratory health, including Rosalina and Spruce for congestion, Lavender and Marjoram for relaxation and Lemon for a burst of energy.

## Directions

Apply topically to your child's chest at a 1–3% dilution using your favorite carrier oil. Alternatively, you can diffuse a few drops of Germ Destroyer during times of seasonal illness. Year-round, you can add Germ Destroyer to household cleaning products for a fresh, safe boost.

## Why KidSafe®

Specifically formulated by Robert Tisserand for children ages 2-10, KidSafe by Plant Therapy is the first-ever line of essential oils developed especially for children. As parents ourselves, the Plant Therapy team wouldn't settle for anything less than absolute safety. That's why we invited the world's foremost expert on essential oil safety, Robert Tisserand, to create the KidSafe line. The level of research, testing and quality assurance that we put into developing our KidSafe line is unparalleled in the industry.

And not only are the oils 100% safe for children, they are effective too.

If you are looking for essential oils to use on your little one, there is simply no comparable product available on the market today!
